

The Seasons

Unjumble the words and copy the passage:

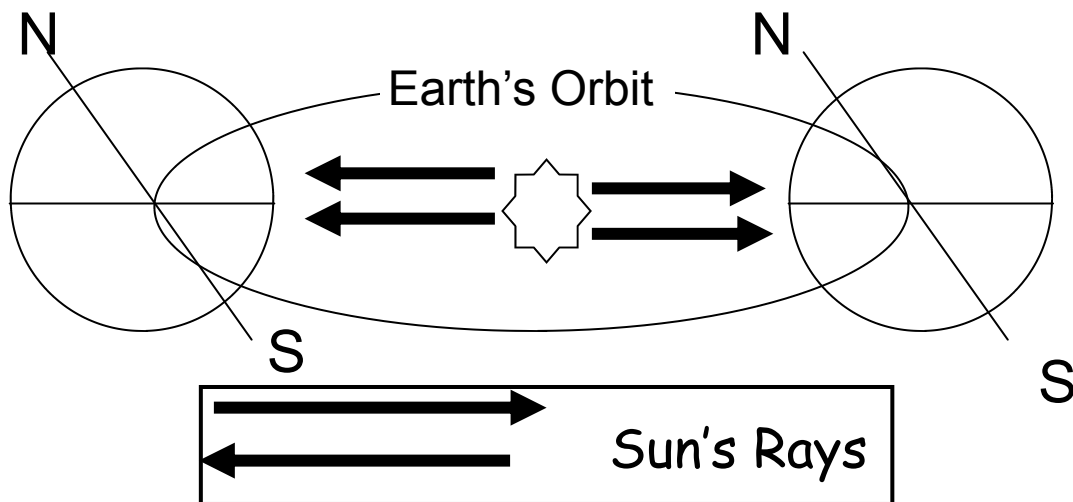

*The **(thear)** tilts at an angle of 23° on its axis.

*Winter occurs in the hemisphere which is angled **(waya)** from the sun.

*Summer occurs in the hemisphere which is angled towards the **(nus)**.

*During the Summer months the daylight hours are **(ongler)**, the sun ruses earlier and sets **(retal)**.

Copy this diagram into your book:

*Seasons are caused by the earth's tilt. This is why some places have warmer temperatures than others.

Activity:

Use text book to investigate seasons and seasonal changes
